## Nature Of Opinion

Docket Number: E-01345A-16-0123

Docket Position: Against

APS rate increase should not be approved. Over the last 10 years APS has afforded 3-25% bonuses to their businesses (3K+ employees) they are paying Directors and above more than market rate and VP's more than the US president makes. Arizona has afforded APS exclusive rights to over 1million customers with no option to shop and create a free market for services. Thus their stewardship to the rate payer and the residents of Arizona is not respected. Their management of their budgets and profits are very fat cat like practices, with buy in and aligned intimidation tactic to their employees. They are strongly anti union and minority demographic among their directors and VP ranks out of 16+ VPs 2 are racial minorities. They layoff more then they hire and they waste money on lawsuits, projects and out of state trips to gain more money and strength from DC. Palo Verde and APS have enjoyed high stock prices and they are champions in the industry on the back of our Arizona weather, location and people. They make enough for a life time, please do not approve this fat cat bill or else open the power market to include competition and the creation of other nuclear power plants so we are not required to contribute to this kind of stuff.
